Subject:- Expenditure on Department of Education.Reference:- Your 2572/PE of 2-11-1937.

I append details of expenditure by the Public Works Dept. on services rendered to your department during the financial year 1936/37 :

<u>I. Public Works Recurrent.</u>	LP.Mils
1. Maintenance of Buildings	2,162.154
2. Minor Works	84.623
3. Water Supply and Conservancy	635.853
4. Rent of Offices and Schools	8,432.069
5. Furniture	<u>353.100</u>
Total:	<u>11,667.799</u>

II. Public Works Extraordinary.

1. Additional accommodation, Boys' School, Beersheba	170.278
2. Construction of Workshop, Secondary Boys' School, Gaza	245.732
3. Additional latrines, Girls' School, Gaza ...	214.250
4. Asphaltting of yard, Boys' School, Gaza	199.705
5. Asphaltting of yard, Girls' School, Gaza	129.722
6. Government Trade School, Haifa	712.881
7. Extension of playgrounds, Girls' School, Jenin	3.100
8. Construction of Elementary Boys' School, Safad	5.100
9. Additions and improvements to Elementary Boys' School, Tulkarm	8.800
10. Minor alterations and improvements to school buildings and hirings	759.847
11. Construction of Town Schools (Final payment for the Central Girls' School site at Haifa)	<u>5,793.925</u>
Total:	<u>8,243.340</u>

P.T.O.

LP.Mils

III. Loan Works.

1. Government Arab College, Jerusalem	525.965
Government Schools in Towns:	
2. Elementary Boys' School, Haifa	14,278.960
3. Elementary Boys' School, Ajami Quarter, Jaffa	661.318
4. Central Boys' School, Jaffa	3,963.492
5. Central Girls' School, Jaffa	991.680
6. Elementary Boys' School, Lower Talbieh, Jerusalem	1,912.853
7. Central Girls' School, Bab Issahara, Jerusalem	5,830.666
8. Construction of Trade School, Haifa	20,551.741
9. Capital grant to Jewish Institutions (Hebrew Technical Institute, Haifa)	2,191.290
<u>Total:</u>	<u>50,907.965</u>

IV. Funds provided by Department of Education.

1. Other Charges - School Furniture	176.384
2. Special Expenditure - Furniture and Equipment	19.500
<u>Total:</u>	<u>195.884</u>

2. The above figures do not include 'Overhead Charges' which, calculated on the proportionate expenditure on services carried out for your Department to the total expenditure by the Public Works Department during the period under review, is about LP.5,300.

3. In addition to the expenditure detailed above, a sum of LP.303.923 mils was spent on village schools from other funds, e.g. District Administration - Minor Village Works, Deposits by Villagers and Grants-in-Aid.

In drawing up these estimates I find it difficult to ascertain whether I am to include for the Haifa Government Trade School, as these buildings appear to be under special arrangement.

2. I have under stress of circumstances incurred some expense on the pumping plant, but await your instructions before assuming complete maintenance.

3. For the Maintenance of Buildings involved at this school the question does not arise this year, but for next year it will be assumed that funds must be budgeted for unless instructions to the contrary are received.

In reply please quote
No. 2420/1/PE

Director of Public Works.

Subject :- Education Estimates 1938-39.

Reference :- Your No. 3 of 2.11.36 in reply
to my 2420/1/PE of 28.10.36.

In connection with the calculation of the Grant-in-Aid to the Va'ad Leumi schools for the financial year 1938-39, I require an estimate of the expenditure by your Department on Government schools during that year. As such an estimate is presumably not yet available, I would suggest that you furnish a preliminary estimate of recurrent expenditure only, as for the financial year 1937-38. This should be divided up as follows :-

Rent of offices and schools
maintenance of buildings
Minor works
Water supply
Furniture
Overhead charges (share of
administration etc.)

Later, when the requisitions for schools have been determined, you will no doubt be able to give me a more exact estimate for 1938-39, including also non-recurrent expenditure :- extraordinary expenditure and interest on loan works. The necessary adjustments in my estimates can then easily be made.

Dear Kenniff,

When I was in Palestine in 1935 I was told that the Public Works Department had a specification (or formula) for some kind of cement compound suitable for wall blackboards. If you still have it, I should be glad if you could send me a copy, as I want to try it at the Training College of Morphou. I should be very grateful if you could send it by return.

Yours sincerely,

Kenniff

8th June, 1937.

Director of Education.

Subject : Expenditure - 1936/37.

Reference: Your 2420/1/PE of 28.5.1937.

I append hereunder the figures of expenditure by this department on recurrent services for your Department during the financial year 1936/37 :

	<u>LP. Mils.</u>
Rent	8,432.069
Maintenance of buildings	2,155.777
Minor Works	84.623
Water Supply and Conservancy	635.853
Furniture	353.100
<u>Total:</u>	<u>LP. 11,661.422</u>

The above amounts do not include overhead charges and as the figures of the total expenditure by the Department of Public Works for 1936/37 are not yet available it is not possible to furnish at present an accurate figure for overhead charges. The overhead charges for 1934/35 and 1935/36 were approximately $7\frac{1}{2}$ o/o and $6\frac{5}{8}$ o/o respectively, and it is suggested that the average of 7 o/o be taken. Please see in this connection my No.3 of 13.11.1935 and No.3 of 9.11.1936.

3.

April 28th, 1937.

Director of Education.

188

Subject : Water Supply to Government School.

Reference: Your 3268/PE dated 1-4-1937.

This department is responsible for maintenance services of all buildings leased or owned by Government and maintenance services generally include water supply. Village schools are not maintained by Government and this department cannot therefore pay for water supplied to such schools. Your attention in this connection is invited to your circular No.47 of 29-9-1921.

153-318

2. Payment for water supplied to the Lifta School was already raised by you at the end of 1932 - see correspondence ending with my 3/8 of 21-12-1932. The position with regard to the Sur Bahir School is analogous.

3. With reference to paragraphs 1, 2 and 3 of your letter the question as to whether Municipalities and other bodies should participate in the cost of maintenance of Government schools is hardly one which concerns this department.

(Sgd) H. C. H. Jones

Director,
Public Works Department,
Jerusalem.

April, 1937

Subject :- Water Supply to Govt. Schools.

I have under consideration the general question of payment for water consumed in Government schools.

In my view the policy should be to devolve the cost of all material services on the local authorities, and water where a public water supply exists should certainly be provided by every local authority for the public schools within its area.

At present however the cost of water supplied to the Government Schools in Jerusalem town is defrayed from Government funds at your disposal. I now propose that with your concurrence the matter be taken up with District Commissioners and that all municipalities, local councils and villages which have public water supplies be informed that as from the beginning of the financial year 1938-39 no payment for water consumed in public schools will be paid for by Government. Provision will therefore have to be made accordingly in the 1938-39 budgets of the local authorities concerned.

In the meanwhile an anomaly exists. Although Government pays for the water supplied by the Jerusalem Municipality to the town schools in Jerusalem, it has not yet done so for the water supplied by the same Municipality to the Government schools of Lifta and Sur Bahir.

I shall be obliged if you will arrange for the water bills of these two Government Schools to be paid so long as Government continues to pay for the water supplied to Jerusalem Schools.

3.

February 9th, 1937

Director of Education,

Subject : Va'ad Leumi School Building Scheme. 185

Reference: Your 3299/2/PE dated 6.2.37.

The total area of the building as outlined by you would be about 870 M2.

2. It is not possible for this Department to furnish you with an estimate of cost whether for stone or concrete, firstly because no data of value has been received since the riots and costs of materials are going up, secondly because the standard of workmanship required can vary very greatly and thirdly because the actual cost of these buildings is likely to be influenced by restrictions as to the type of labour to be employed.

3. As to the type of construction a concrete frame would perhaps be convenient whether this frame should be clothed in stone or have walls rendered in plaster would depend upon the nature and position of the sites selected.

DIRECTOR OF PUBLIC WORKS.

GOVERNMENT OF PALESTINE, 185
DEPARTMENT OF EDUCATION,
JERUSALEM.

In reply please quote

No. 3299/2/PE

6 February, 1937.

Director of Public Works.

Subject :- Va'ad Leumi School Building Scheme.

Reference :- Your letter No. 3A of 14.1.37 and Conversation of Mr. Bentwich with Mr. Concannon on 25th January.

The building provided for in the scheme will ordinarily consist of eight or twelve classrooms. At this stage it is impossible to give accurate specifications or measurements, but the enclosed rough sketch-plan for a school of eight classes accommodating 350-400 pupils and the following details will, I think, serve your purpose.

2. The total internal area (excluding latrines) has been calculated as follows:-

8 classrooms with adjacent corridor

Each classroom	52.5 m ²	
Each corridor	14 m ²	
	66.5 m ²	 532 m ²

Entrance hall and stairways with servant's room below:-

On each floor	40 m ²	 80 m ²
---------------	-------------------	-------------------------

Workshop on ground floor with nurse's room, teachers' room and headmaster's room on 1st floor:

On each floor	72 m ²	 144 m ²
---------------	-------------------	--------------------------

756 m²

Add 10% for thickness of walls etc.

76 m²

832 m²

=====

The average area per classroom would appear to be therefore in the neighbourhood of 104 sq. metres. I shall be glad of your observations on the above.

3. As regards estimates of cost and type of construction, I should be grateful for your advice. Buildings will be required in the following towns:- Jerusalem, Haifa, Tiberias, Safad, Afule.

It would be much appreciated if information as to building could be given for each town under the following heads,

- (a) estimated cost if of concrete,
- (b) estimated cost if of stone,
- (c) type of construction recommended.

Subject : Education Estimates 1937/38.

Reference: Your 2420/1/PE of 21.1.1937.

The figures on which the 1937/38 draft Estimates are based include the following approximate provision for your department :

① Rent	-	LP.8,150
Maintenance of Buildings	-	3,000
Water Supply and Conservancy	-	1,500

With regard to the votes of "Minor Works" and "Furniture", no estimates can be prepared. The sum which will be spent for your department depends upon the total provision authorised under these votes and the urgency of the services which will be asked for by you in relation to those of other departments.

① figure obtained from Mr. Hammond
All

A.D.(2)

I have discussed this with Mr. Hogben and he is of the opinion that such information should be supplied to the Vaad Leumi through the Department of Education as the figure of expenditure for school building during the years in question will need explanation. The total figure which I should produce would include offices, schools, stores, hostels etc. Therefore as the Chief Secretary instructs in his letter No.W/231/36 of 1st January, 1937, the figure should be sent to the Department of Education first and not supplied direct to the Vaad Leumi.

Subject :- Education Estimates 1937/38.

I shall be obliged if you will kindly furnish me as early as possible with ~~your~~ an estimate of recurrent expenditure by your Department on Government schools during the financial year 1937/38. The items required are those given in your letter No.3 of 2nd November, 1936.

2. I also require an estimate of the non-recurrent expenditure for 1937/38, but I understand that you are not yet in a position to furnish it. I shall, however, be grateful if you will send it to me in due course.

Director of Education,

subject : Va'ad Leumi School building
Scheme.

Reference: Your 3299/2/PE of 22.12.1936.

Without knowing what rooms are allowed for teacher's nurses and servants and without details of staircases and work rooms entrance halls and latrines it is quite impossible for me to check the figure given in para 10 of your letter as the "floor area of other rooms". I cannot therefore confirm your suggestion that that for every class room 100 squaremetres of building will suffice.

2. I cannot check the figures given for the cost of building as I do not know what type of building is envisaged.

175A

Subject : Va'ad Leumi School building scheme.

Reference: Letter 3299/2/PE of 22.12.1936.
from D. of Education

In connection with the figures given in paragraphs 10, 11 and 12 in a report sent with the letter under reference I submit hereunder my comments as instructed.

Comparison of three standard school buildings with differing accommodation requirements shows :

- (a) 'Umariya School, Jerusalem
(Boys' Elementary).

8 class rooms:- area of building : 1,130 m²
building and latrine block = 1,200 m² = 140 m² per class room.
150 m²

- (b) Sheikh Jarrah School, Jerusalem
(Girls' Central).

11 class rooms :- area of building: 1,390 m²
building, latrine block and gate = 1,470 m² = 126 m² per class room.
135 m²

- (c) Hamsi School, Jaffa
(Boys' Elementary).

6 class rooms :- area of building : 840 m²
building and latrine block = 900 m² = 140 m² per class room.
150 m²

2. I do not consider that the basis of calculating suggested by the Director of Education is sound in a general sense, since the proportion of class room area to that of the whole building must vary according to type of school plan, construction, and differing accommodation requirements.

3. Paragraph 11 - The figure of 80 m² is probably approximately correct in this case, for it presumably refers to the addition of class rooms (8 m. x 7 m.), with

attendant walls and corridor only.

4. Paragraph 12 - commenting on the point made, in my opinion the most satisfactory method of arriving at a reasonably accurate figure of building cost in any part of the country is

(a) to total floor area according to known accommodation requirements,

(b) add a percentage figure for thickness of walls according to the type of plan and construction proposed,

(c) price out total area $(a + b)$ ^{plus necessary Catlines} at a figure commensurate with quality of building standard aimed at and local building costs,

(d) add a further percentage for contingencies to cover site difficulties.

(e) add a figure for fencing (Bays) and wall (Girles) around site boundaries.

S.

ASSISTANT ARCHITECT.

Draft

General Council (Vaad Leumi)
of the Jewish Community of Palestine,
P.O.B. 471,
Jerusalem.

170

Gentlemen,

Further to my letter No.3 of 25-12-1936

I forward herewith a statement giving particulars
of expenditure incurred by this department
during the financial years 1933-1934, 1934-1935
and 1935-1936 on the construction of new schools
and major improvements and additions to existing
schools.

I have the honour to be,

Gentlemen,

Your obedient servant.

Chief Secretary's Office,
Jerusalem,
Palestine.

1 January, 1937.

Director of Public Works.

Subject :- Expenditure by
Government on Arab Schools.

Reference:- Your letter No.3 of the
24th December, 1936.

I am directed to inform you that no objection is seen to the General Council (Vaad Leumi) of the Jewish Community of Palestine being furnished with the information with the details of expenditure contained in the three letters forwarded with your letter. It is considered, however, that you should obtain the concurrence of the Director of Education in the terms of your reply to the Vaad Leumi.

Chief Secretary.

Subject : Expenditure by Government
on Arab Schools.

168

I forward herewith a translation of a letter received from the General Council (Vaad Leumi) of the Jewish Community of Palestine asking for particulars of expenditure by Government on the erection of Arab schools since 1933. 131 157

I forward herewith copies of letters sent to the Director of Education in November 1934, November 1935 and November 1936, giving the expenditure on Government schools in 1933-34, 1934-35, 1935-36 financial years respectively. 167

I shall be glad to be informed if, in reply to the request of the General Council (Vaad Leumi) of the Jewish Community of Palestine I may furnish the details of expenditure given in the enclosed 3 letters, under the Heads "Public Works Extraordinary" and "Loan Works."

(Sgd) FAWCETT PUDSEY.

Mr. Harrison

168A

Subject : Va'ad Leumi School building scheme.

Reference: Letter 3299/2/PE of 22.12.1936
from D. of Education. (attached).

In connection with the figures given in paragraphs 10, 11 and 12 in a report sent with the letter under reference I submit hereunder my comments as instructed.

Comparison of three standard school buildings with differing accommodation requirements shews :

(a) 'Umariya School, Jerusalem
(Boys' Elementary).

8 class rooms:- area of building : 1,130 m²
= 140 m² per
building and latrine block = 1,200 m² = 150 m² " "
class room.

(b) Sheikh Jarrah School, Jerusalem
(Girls' Central).

11 class rooms :- area of building: 1,390 m²
= 126 m² per
building, latrine block and Gate House = 1,490 m² = 135 m² " "
class room.

(c) Hamsi School, Jaffa
(Boys' Elementary).

6 class rooms :- area of building : 840 m²
= 140 m² per
building and latrine block = 910 m² = 150 m² " "
class room.

2. I do not consider that the basis of calculating suggested by the Director of Education is sound in a general sense, since the proportion of class room area to that of the whole building must vary according to type of school plan, construction, and differing accommodation requirements.

3. Paragraph 11 - The figure of 80 m² is probably approximately correct in this case, for it presumably refers to the addition of class rooms (8 m. x 7 m.), with

attendant walls and corridor only.

4. Paragraph 12 - commenting on the point made, in my opinion the most satisfactory method of arriving at a reasonably accurate figure of building cost in any part of the country is

(a) to total floor area according to known accommodation requirements,

(b) add a percentage figure for thickness of walls according to the type of plan and construction proposed,

(c) price out total area $(a + b)$ ^{plus necessary latrines} at a figure commensurate with quality of building standard aimed at and local building costs,

(d) add a further percentage for contingencies to cover site difficulties.

(e) add a figure for fencing (Boys') and wall (Girls') around site boundaries

ASSISTANT ARCHITECT.

Proposed Building Loan for Va'ad Leumi
Schools.

1. General Outline.

In April 1936, a scheme was put forward by the Va'ad Leumi for the erection of new buildings, or additions to existing buildings, in 53 schools, urban and rural, with the help of a loan of £P.250,000. It was supposed that about one half of the plan would be put into effect immediately, requiring a loan of £P.130,000; and that the rest would be required to meet expansion during the next five years.

2. The net loan charges (interest and sinking fund) on the loan of £P.250,000 were reckoned at £P.15,680 per annum; and it was shown that these would not exceed the rents which would have to be paid in order to provide the same accommodation in hired buildings. It was also contended that the substitution of proper buildings for hirings would result both in economies of teaching staff and in increase of revenue from school fees.

3. This scheme was not approved by the Treasurer on the ground that the sources of revenue for payment of the loan charges were largely conjectural. At the same time, the assumption made, that the expansion of the last two years will be continued, seems now to be unwarranted; and, for the time being therefore, a more modest building scheme may be adequate.

4. In the following scheme it is proposed to restrict the scheme to 14 urban schools, which are at present housed in hired buildings, and 2 schools, also urban, where the accommodation is regarded as unsatisfactory on hygienic grounds, making a total of 16 schools.

5. The loan required is about £P.87,000 of which the charges (interest and sinking fund) are reckoned at about £P.6,000. Of this sum, £P.4,500 are actually being paid in rents either by the Va'ad Leumi or by the Haifa Kehillah; and it is considered that the remaining £P.1,500 are sufficiently covered by the annual Government grant to the Va'ad Leumi in respect of capital expenditure.

6. Sites. In Jerusalem 6 sites are required. One of these will be provided by the Jewish National Fund, and it is reckoned that two further sites can be acquired out of the Government non-recurrent grant to the Va'ad Leumi during the next two years, including the lag payment of about £P.7,000 for the transitional period October 1934 - March 1936. It will therefore be necessary to purchase only three sites, ^{two} of 4 dunams, and one of 2 dunams, at a total estimated cost of £P.17,000.

7. In Haifa 5 sites are required. Of these 3 have already been awarded by the Hadar Hacarmel Committee, leaving 2 to be purchased; one of these being of 2 dunams, and the other (an extension of an existing school site) of 1 dunam only. The total cost is estimated at £P.6,000. If the Ard el Ballan site, which is at present ^{a plot} domain, is made available for a

school, as has been proposed, this expenditure may be reduced.

8. In Afule and Tiberias, the sites are already available. In Safad, there is a State land available of about 7 dunams; it will be desirable however to purchase an adjoining plot of 2-3 dunams at a cost of about EP.300.

9. Altogether therefore, it is proposed to purchase 6 sites only, of which 2 are merely additions to existing sites, at a total cost of EP.23,500.

10. Building costs. For each class-room it is reckoned that 100 sq.m. of building area must be allowed, as follows :-

Floor area of class-room (8 m. x 7 m.)	56 sq.m.
Floor area of corridor (2 m. x 7 m.)	14 " "
Floor area of other rooms (teachers room, nurse's room, servants' quarters, staircase, work rooms etc.)	20 " " per classroom
	90 " "
Add 10% for thickness of walls etc.	9
	<u>99 sq.m.</u>

11. Where classrooms are added to existing buildings, the area is reckoned at ^{so} ~~8-9~~ sq.metres only.

12. The average cost of building, including sanitary installation etc. is reckoned at EP.6 per sq.m. in Jerusalem and Haifa, and EP.5.500 in the smaller towns.

13. Local contributions. It is proposed to levy a one-time contribution from the parents in the schools affected, averaging EP.1 per child in the poorer districts, and EP.2 per child in Haifa and Tiberias.

14. In Haifa, it may be necessary to levy an additional contribution of about EP.2000. The cost of the Geulah school, although reckoned at EP.4,800 will amount actually to about EP.7000, partly on account of the more liberal provision of work rooms, partly because the school has already been built, before the general lowering of prices. It should not be difficult for the Kehilla to raise this additional sum.

15. Towards the erection of the school at Afule, the Local Council has already raised a sum of about EP.2,000 from the sale of communal lands.

16. Table. Sources of Revenue. The attached table shows the estimated expenditure and sources of revenue in respect of each school, calculated in accordance with the principles outlined above.

17. It will be seen that the loan charges, reckoned at 7% of the capital, will amount to EP.6,085 as against present rent charges of EP.4,500.

18. The difference of EP.1,585 is adequately covered by the Government non-recurrent grant. In respect of the interest on Loan Works (5% of 180,000 = EP.3,900), there will be an annual grant to the Va'ad Leumi of about EP.1,000; and the grant in respect of Special Expenditure on the budgets of the Education

and Public Works Departments is not likely ever to fall below £P.1,000. A total non-recurrent grant of at least £P.2,000 is thus assured.

IV. Funds provided by Department of Education.

1. Tools and Equipment for Technical Instruction	LP. 349,500
2. School furniture (Special Expenditure)	462,000
3. School furniture (Other Charges).	24,000
4. Furniture and Equipment for Rural Female Teachers Training Centre.	131,250
5. Grants for improvements to School Gardens	96,286
6. Materials for technical instruction	206,500
Total	LP. 1,269,536 =====

The above figures do not include 'Overhead Charges' on which the approximate amount based on the proportionate expenditure on services carried out for your Department to the total expenditure by the Public Works Department during the period under review is LP. 4,929.

In addition to the expenditure detailed above, a sum of LP. 1,130,583 was spent on village schools from other funds e.g. District Administration - Minor Village Works, Deposits by villagers and Grants in aid.

Subject :- Education Estimates 1937/38.

Reference:- Your No.3 of 18.11.35 in
reply to my 2572/PE of 9.11.35.

In connection with the calculation of the Grant-in-Aid to the Va'ad Leumi schools for the financial year 1937/38, I require an estimate of the expenditure by your Department on Government schools during that year. As such an estimate is presumably not yet available, I would suggest that you submit a preliminary estimate of recurrent expenditure only, as for the financial year 1936/37. This should be divided up as follows :-

- ✓ Rent of offices and schools
- ✓ Maintenance of buildings
- Minor works
- ✓ Water supply
- Furniture
- Overhead charges (share of administration etc.)

Later, when the requisitions for schools have been determined, you will no doubt be able to give me a more exact estimate for 1937/38, including also non-recurrent expenditure :- extraordinary expenditure and interest on loan works. The necessary adjustments in my estimates can then easily be made.

2. I shall be obliged if you will treat this matter as urgent, as I am required to submit a preliminary estimate of the Va'ad Leumi grant not later than November 1st.

Letter from D.M.S. - 12-7-35 - re above.

(2)

A/D. of E.

Have you anything to say about this, please ?

I presume only Govt. Schools are mentioned.

Initialled: J.V.S.
for C.S. 15-7-35.

(3)

C.S.

Ref. para 7 of (1), it would be helpful if the terms of reference of the Village Water Supply Cttee were enlarged to cover the supply of water to school gardens.

Only Govt. schools are mentioned in (1). There are few non-Govt. schools in Arab villages which are of sufficient importance or permanence to merit consideration.

Initialled: N.J.J.

(4)

D.M.S.

What are your views as to para 1 of (3), pl ?

Initialled: J.V.S.

for C.S. 18-7-35

(5)

Chief Secretary.

I think it would be inadvisable to place on the Village Water Supply Committee the responsibility of voting funds for the irrigation of Government School Gardens. The Committee was designed to deal with domestic supplies only for villages. Services of water to

Government institutions whether for domestic use or for garden purposes would appear to be a purely Public Works Service.

106/83

Department of Health,
Jerusalem.

12th July, 1935.

Enclosure 9.

Subject:- Water Supply to School Gardens.

Chief Secretary,
Government Offices,
Jerusalem.

I was requested by His Excellency the High Commissioner to take up the question of water supplies to Government school gardens.

2. From information supplied by the Department of Education, in the case of 107 gardens where teachers competent to give garden instructions are posted, I have tabulated the gardens in two categories:- List A gardens with no water supply; List B, gardens with water supply which require improvement.

3. A large number of proposals in List A and a few in List B have not been estimated, but the total cost of those already estimated is as follows:-

List A - £P. 2633.

List B - £P. 165.

4. It is considered that an approximate sum of £P.5000.- will be required to supply water for gardens to the schools in the List A and carry out repairs to those in List B.

5. It must be understood that in certain instances the water supply of certain villages

for household purposes is so scanty, that water for gardens could not be supplied. For instance, in Raluja there is a very scanty supply.

6. Before proceeding further in the matter of estimation of costs, I should like to be informed as to Government's Intentions in the matter of providing credits.

7. The supply of water to school gardens does not come within the scope of the Village Water Supply Committee, which deals with domestic supplies only.

Sgd. G.W. Heron.

GOVERNMENT OF PALESTINE,
DEPARTMENT OF EDUCATION
JERUSALEM

3234/2/PE

20 December, 1935.

CHIEF SECRETARY.

Subject :- School building programme for
1936-37.

Reference:- Conversation between Mr. Bowman
and Mr. Moody dated 19.12.35.

Further to my conversation with Mr. Moody
~~to-day~~, I have the following observations to make for
consideration by the Budget Committee.

2. I have been informed that the majority of
my proposals to provide school-places in public buildings
with the assistance of Urban Local Education Authorities
have been rejected on the grounds that the contributions
promised by municipalities are on a scale which the
Treasurer considers they cannot afford. Two items, one
of which is Tiberias Girls' School, were subsequently
re-submitted as Major Works but I understand they have
also now been eliminated. No alternative means of pro-
viding school places has been put forward.

3. I am therefore compelled to ask for a further
reconsideration of my original proposals both for Major
Works and for Grants-in-aid to Urban Authorities. These
proposals, taken together, are vitally necessary if the
approved Urban expansion scheme is to continue, but the
distribution of expenditure between the two heads is
capable of variation.

It should however be noted that works to be
carried out by municipalities with the assistance of
grants-in-aid are in all cases much less costly to Govern-
ment than those carried out by the Public Works Department.

4. Furthermore, as a matter of policy, I feel strongly
that every effort should be made by Government to encourage
these first intimations by municipalities that they are
willing to shoulder a share of the responsibility and expense
of providing a system of public education as has been done
for many years by the villages. In this connexion I would
invite your attention to the observations of the Lords
Commissioners of the Treasury contained in paragraph 6 of
the Treasury letter dated 20th September 1935, accompanying
the Secretary of State's Despatch dated 1st October 1935,
and my reply dated 17th October, 1935, the substance of
which, as you have informed me, will be conveyed to the
Secretary of State.

22 November 1947

114
A.A. (6)

Subject: - 444 of 1947 (Education) - 22

Reference: - 444 of 1947 (Education) - 22

1. The Director of Education has the honor to acknowledge the receipt of your letter of the 11th November 1947, regarding the subject mentioned above.

2. In reply to your letter of the 11th November 1947, the Director of Education has the honor to inform you that the Department of Education is currently engaged in a study of the educational situation in the various districts of the country, and that the results of this study will be made known to you as soon as they are available.

3. The Director of Education has the honor to inform you that the Department of Education is currently engaged in a study of the educational situation in the various districts of the country, and that the results of this study will be made known to you as soon as they are available.

4. The Director of Education has the honor to inform you that the Department of Education is currently engaged in a study of the educational situation in the various districts of the country, and that the results of this study will be made known to you as soon as they are available.

5. The Director of Education has the honor to inform you that the Department of Education is currently engaged in a study of the educational situation in the various districts of the country, and that the results of this study will be made known to you as soon as they are available.

5. The particular cases in point are as follows:-

	<u>Proposed Contributions</u>	
	<u>Local Authority</u>	<u>Government</u>
<u>Jerusalem District</u>		
(1) Hebron	5,500	5,500
(2) Ramallah	4,000	4,000
<u>Southern District</u>		
(3) Beersheba	250	800
<u>Northern District</u>		
(4) Nablus	500 ^x	500
(5) Tiberias	3,000 [#]	4,000

x Promised only if a Girls' School is erected by Government.

Accumulated amount from the Baths held on deposit in the Treasury for purposes of the education of Arab speaking children.

6. In the case of Nablus it should be added that the promised contribution of LP.500 was made on condition that a new girls' school was erected in Nablus by Government. This proposal which was included in my list of Major Works has since, I understand, been eliminated. I am again compelled to ask that this decision be reconsidered, in which case the LP.500 grant-in-aid towards the erection of new class rooms at the Salahiya Boys' School can be retained. Already this year the question of accommodation in Nablus has proved to be very difficult. Hirings are now unobtainable in that town, and unless new class rooms are provided next year in public buildings the approved expansion scheme may have to be gravely curtailed.

7. I would therefore suggest that

(i) in respect of the proposed contributions from the Local Education Authorities Government will consider whether

(a) any necessary loans to Local Education Authorities may not be made by Government at low rates of interest, rather than by banks

(b) Government's direct contribution to the expense of building may not be more than 50% of the total.

(ii) in respect of Major Works outside the authorized four-year building programme, it may be considered whether

? In DPW
to say (R)

(a) additional staff may be voted to the Public Works Department for the proposed buildings

or (b) the work may be given to outside architects.

Noting

DE

8. At the risk of repetition, it cannot be too clearly stated that in every one of the five towns mentioned the existing schools are already full, no suitable hirings are obtainable, and unless new class-rooms are provided, by whatever means, no expansion can take place in the schools concerned. Hirings containing rooms sufficiently large to be used as class rooms are unobtainable. Even the existing hirings in almost every case are gravely uneconomical as, owing to the smallness of the rooms, the ratio of pupils to teachers is unduly small.

Subject : Expenditure on Department
of Education.Reference: Your 2572/PE dated 9-11-1935.

I append details of expenditure by the
Public Works Department on services rendered to
your department during the financial year 1934-35.

I. Public Works Recurrent.

(a) Maintenance of Buildings	LP. 1,420.550
(b) Minor Works.....	" 322.044
(c) Water Supply and Conservancy. "	838.829
(d) Rent of Offices and Schools.. "	7,862.318
(e) Furniture.....	" 151.100
Total	<u>LP. 10,594.841</u>

II. Public Works Extraordinary.

(a) Additions to Secondary Boys' School, Acre.....	LP. 399.752
(b) Additions to Boys' School, Bira.....	" 850.066
(c) Additions to Boys' School, Gaza.....	" 761.802
(d) Additions to Girls' School, Gaza.....	" 1,142.669
(e) Additions to Girls' School, Jenin.....	" 81.137
(f) Additions to Rashidiya Boys' School, Jerusalem.....	" 608.556
(g) Additions to Boys' School, Lydda.....	" 1,179.567
(h) Additions to Boys' School, Ramle.....	" 544.525
(i) Additions to Fatmiya Girls' School, Nablus.....	" 572.173
Total	<u>LP. 6,140.247</u>

III. Loan Works

(a) Elementary Boys' School, Lower Talbieh, Jerusalem...	LP. 2,830.000
(b) Government Arab College, Jerusalem.....	" 13,025.285
(c) Construction of Trade School, Haifa.....	" 559.865
(d) Elementary Boys' School, Ajami Quarter, Jaffa.....	" 2.800
Total	<u>LP.16,417.950</u>

The above figures do not include 'Overhead Charges' on which the approximate amount based on the proportionate expenditure on services carried out for your Department to the total expenditure by the Public Works Department during the period under review is LP.2,397.

Subject :- Repairs and alterations to
School Hirings.

Mr. A. D. (2)

I shall be glad if you will issue financial allocations to District Engineers from your vote, Head XXVII item 40 "Structural additions etc." for the following works which are urgently needed and cannot be done by the landlords. You will recollect that this item was specially included to allow for structural alterations or improvements to hired premises to make them suitable for use as schools for new pupils.

P.A.

1. Haifa Girls' School

No. 269. lease expires 3/17/36 will not be renewed.

Path from school exit to latrines of stone, gravel or other suitable material. In winter the path is a morass.

Amounts issued from H. W. R. 2/11/35

£P.15

2. Hebron Girls' School

No 4/44 lease expires March 1937

(a) Repair to flooring of upstairs rooms in Tahbub hiring. There are huge holes in the concrete at present.

Estimate required

(b) Provision of water tank to Tahbub hiring.

(c) Connection with main town water supply. At present there is no water in this section of the school.

Reference:- Your 3 of 8.7.35.

I herewith return copies of plans forwarded with your letter under reference.

2. Type A, plan No. JM/1870, as modified in pencil, would be suitable for Beersheba. The open side should face the quarter where there is least wind.

3. Modifications include a thin wall on three sides 3m. high, with plain unglazed window openings about $1\frac{1}{2}$ x 1m. at intervals in the wall - the sill to be 1m. from the ground. Wooden shutters of simplest design. Small shuttered window in store room, which must be burglar proof.

4. Type B, plan No. JM/1871, would be suitable for Jenin where a workshop is to be built shortly.

Copy for 3 ✓

Items 13 to 15. Education. Should be grouped under one heading entitled 3 town Schools in the sum of LP.36,000, of which LP.18,000 only should be included in next year's Estimates.

The Director of Public Works explained that he could not promise to complete construction within a year as much depended on whether the Director of Education altered the plans. Provision of LP.18,000 covers the cost of land only.

Item 16. Women's Training School. was retained in Category 2 of the Building Programme but was deleted from the Public Works Extraordinary Schedule, as it was not regarded as a work of extreme urgency.

Item 17. The Boys' School at Sawani was deleted.

Item 18. Additional School Accommodation was reduced to LP.1000 to cover structural additions.

Item 19. Alteration and Improvements to School Building was reduced to LP.2000 to cover minor improvements.

Cur

26/11/34.

89/19/1

Government of Palestine,
Department of Education,
Jerusalem.

24th November, 1934.

District Commissioner, Southern.
Director of Public Works.

Subject:- Gaza Schools.

Reference:- District Engineer Jaffa's 1/35/4
of 4.11.34 to Director of Public
Works with copy to District Com-
missioner Southern and District
Commissioner Southern's 4096 of
19.11.34 to Director of Education.

I agree in general and in theory with Mr. Noble that a far-sighted programme of new buildings is preferable to the present policy by which money is spent upon the extension and reconditioning of pre-war constructions.

2. In practice it is difficult, if not impossible, to secure the heavy capital expenditure necessary for entirely new schools and we are compelled, against policy, to patch rather than build de novo.

3. Mr. Noble's opinion that "the question of land purchase should be investigated by a competent committee" is unexceptionable in theory. In practice my experience is that the result would be the indefinite postponement of all practical steps to increase the number of school places.

4. The present situation at Gaza is that

- (a) the Boys' School has 634 pupils in 15 classes
- (b) the Girls' School has 545 pupils in 12 classes.

The applications rejected in September 1934
were

Boys 163
Girls 30.

Mr. Noble's proposal is to transfer the Boy's School and to give its building as an annexe to the Girls' School.

6. To build a new boys' school to take the full strength of the present school would cost about LP. 13,000 with no provision for expansion. The real need is for

(a) additional class-room in the present school to reduce overcrowding

(b) a second boys' school in an outlying quarter to provide additional places for the lower grades.

7. The second part of Mr. Noble's proposal, viz. to make the present Boys' School an extension of the Girls' School, has three disadvantages.

(a) the girls thereby would receive more accommodation than they need (see the figure for rejection in

(b) the Boys' School building is not "harim"

(c) the two buildings are close together, whereas, again, when a second school is required it should be in a different quarter.

8. For the above reasons, I recommend that the scheme already put forward, for which provision has been made, be proceeded with immediately. The only result of delay and of reconsideration will be the loss of the financial provision and the postponement, probably for years, of the measures urgently required for the expansion of school accommodation in Gaza.

for DIRECTOR OF EDUCATION.

Copy to:- District Engineer, Jaffa.

36/1/3.

129
November 24th, 1934

Chief Secretary,

Subject: Hebron Girls' School Annexes.

Reference: Your W/145/34 of 31.10.34
to Director of Education.

I have allocated the amount of LP.208 to the Engineer in charge, Jerusalem District from my vote "Head XXV, Item 8, Rent of Offices and Quarters". The work required is of similar character to that authorised by you on the Beduin Boys' School, Beersheba, a State Domain, and on the Girls' School, Beersheba, a hiring, although in the latter case the rent was increased to enable the lessors, the Municipality, to carry out the work.

In the present instance, the rent is small and the lessor unable to carry out the work nor does he regard the proposed latrines as enhancing the value of his property. 146 in 3/2

2. In paragraph 2 of the Treasurer's note dated 28.8.1934 forwarded under your R/163/33 of 30.8.1934, the Treasurer says that new constructions cannot be undertaken from the 'Rents' Vote. I understand this does not refer to such items as erection of latrines but to new constructions in the sense of erection of new buildings. 147 in 3/2

3. The inclusion of amounts in my budget for rents, ear-marked by another department and expended on items other than actual rent, means that the vote is not wholly under my control, several hundreds of pounds

2.

expended on improvements and repairs which should properly be charged to P.W. Extraordinary, Minor Works, or P.W. Recurrent, being debited against the 'Rents' Vote.

Subject : Hirings for Town Schools.

Reference: My letter to the Chief Secretary No. 2868/PE dated 15th August 1934, with copy to you, and letter No. 3/2 dated 28th July 1934 from Chairman, C.H.C., to the Chief Secretary, paragraph 3.

Original in 3/2

Copy for 3

135 in 3/2

I had an interview with the Acting Treasurer on 23rd August and discussed this question with him. The Acting Treasurer confirmed that the sum of L.P. 2,000, included in the Public Works Vote Head XXV, Sub-head 8, "Rent of Offices and Quarters", is earmarked and available for additional accommodation in town schools over and above accommodation already provided previous to this financial year. He also confirmed that by additional accommodation is meant provision for expansion by whatever means - hiring or building - which is found most opportune in each case.

2. I understand from the Acting Treasurer that there is no need for you to refer matters arising out of this question to him, and that, provided the total sum of L.P. 2,000 is not exceeded, you can arrange direct with my office for the necessary hirings and/or additions as may be necessary.

3. I must point out that as Government schools are to reopen on 17th September, there is very little time left for the necessary arrangements to be made in various town schools, and I shall be obliged if you will expedite all the demands in connection with the schools, in order that everything may be in order by the date of the reopening of the schools in September.

13th June, 1934.

Director of Education.

Subject:- Additions to Boys' School, Ramle.

Reference:- Your 1820/PE of 28-5-1934.

In accordance with your request I now submit for your approval and return to this office the revised siting plan JA.RA.89 showing the new building sited as per your suggestions.

I have ascertained that an outside staircase at Lydda Boys' School in accordance with the request contained in your letter 1820/PE of 28-5-34 will increase the cost by LP.50 and will cause an excess of LP.25 on the combined amount provided for Lydda and Ramle Boys' Schools. I propose, however, to call for tenders in the hope that offers will enable both buildings to be completed, otherwise it will be necessary to eliminate the outside staircase at Lydda.

Shutters and blackboards have been provided for both these schools, but bars to windows must wait until we see whether funds to cover cost of same are available. Presumably, these are only required in connection with ground floor and are not necessary for upper floors.

Noted.

Some of the village school rooms are adopted from existing buildings and others are erected by small local contractors who could hardly be expected to properly carry out the work detailed in the specification accompanying your No. 3 dated 18.5.34.

I believe the storekeeper recently had a number of prepared blackboard surfaces on plywood which were obtained from C.A. and suggest that if one of these could be obtained on requisition, it would solve the difficulties that will surely be experienced with village contractors.

My 1820/PE of 28th April, 1934.
Your 5 of 18th May, 1934.

In view of further information which I have received with regard to kindergarten requirements will you please cancel my 1820/PE of 23rd May 1934 and substitute the following :-

The following measurements for wall blackboards are required :-

(a) For all classrooms,

From floor to lower edge of board 1 m. 10 cm.
Height of board 1 metre.

(b) In kindergarten classrooms, in addition to the blackboard as in (a), there should extend round the other three walls, where doors and windows allow, a board of these dimensions,

From floor to lower edge of board 70 cm.
Height of board 50 cm.

2. Kindergarten classes are the lowest classes in Girls' or Mixed schools. There are no kindergarten classes in Boys' schools. The District Engineer or Engineer in charge should ask the District Inspector of Education which rooms, if any, will be used for kindergarten classes.

3. I shall be obliged if these instructions may be issued to District Engineers & Engineers in charge as an addition to my 1820/PE of 28th April, 1934.

Public Works Department,
Jerusalem.

File
In

23 May, 1934.

Note. The writer of
his letter asked me to
suspend action pending
a further communication.

Subject :- Blackboards in School Class Rooms.

Reference:- Your 3 of 18.5.34 and my 1820/PE
of 28.4.34.

The following measurements for wall blackboards
are required :-

(a) For all classrooms other than kindergarten classrooms.

From floor to lower edge of board 1 m. 10 cm.

Height of board 1 metre.

(b) For all kindergarten classrooms.

From floor to lower edge of board 80 cm.

Height of Board 1m. 30 cm.

2. Kindergarten classes are the lowest classes in
Girls' or Mixed schools. There are no kindergarten
classes in Boys' schools. Before installing blackboards
in rooms the District Engineer or Engineer in charge
should ask the District Inspector of Education which rooms,
if any, will be used for kindergarten classes.

3. I shall be obliged if these instructions may be
issued to District Engineers and Engineers in charge as
an addition to my 1820/PE of 28th April, 1934.

4. The plan is returned herewith. The wall blackboard
should be flush with the wall and there would appear to be
no necessity for a frame. May District Engineers and
Engineers in charge be so informed?

A.
Have we plans of the blackboards ref. Tiberias Boys' school?
1/8/34
D. J. P. W.
OK.

Subject :- New Class-rooms.

Reference :- Conversation between Deputy Director of Education and Mr. Winter on 27/4/34.

I understand from Mr. Winter that he agrees with my view that wall-blackboards should be considered as a normal part of a class-room building and estimated for accordingly.

2. It does not appear however that District Engineers and Engineers i/c follow any uniform practice in this matter.

Engineer i/c Nablus requires your approval for wall-blackboards in the new rooms at Jenin Girls' School and Fatimiyah Girls' School, Nablus, as for a separate estimate of expenditure.

3. I shall be obliged if you will give approval accordingly and also issue a general instruction to all District Engineers and Engineers i/c that wall-blackboards are to be estimated for and provided in all new class-rooms.

4. I shall also be obliged if you will instruct these officers to make wall-blackboards according to the method of composition employed in the Tiberias Boys' School and the Rashidiyah annexe at Jerusalem. The wall-blackboards in the newly constructed rooms at Gaza are unserviceable and must be reconditioned.

5. All wall blackboards should, so far as structurally possible, run the whole length of the wall.

Rent of Offices and Quarters.

Reference : Your 110/1144 of 12.2.1934.

I forward herewith a schedule containing the information called for in your above mentioned letter.

The sum of LP.700 shown for "Water Supply and Conservancy" under the Department of Education may prove inadequate and this provision may have to be increased by about LP.200 to 300. The additional funds will be required for newly opened schools and supply of water for gardens of existing schools, the necessity for which has arisen after the submission of the 1934-35 draft Estimates.

Subject :- School Buildings.

I attach herewith copy of a letter addressed to myself by Mr. Arthur Mayhew, Joint Secretary to the Advisory Committee on Education in the Colonies, on the subject of school buildings in the Dependencies. If it is possible for you to enable me to send Mr. Mayhew a reply on this matter, I shall be greatly obliged.

2. I understand that Mr. Harrison is not completely satisfied with the standard plan for rural schools. In this case it might not perhaps be advisable to send the plan to London, ^{but} we might send it with comments and suggestions as to its improvement. You will no doubt let me have your views on this.

3. It may not be possible to give much information on the planning of town schools in Palestine until some of the projected schools have actually been erected. It would however, I think, be of assistance to Mr. Mayhew if he could have the benefit of Mr. Harrison's advice on this matter.

4. If you are in a position to enable me to reply, I would suggest that the terms of the letter should be written in a tentative way. After a year or two it may be possible to send further information of a more detailed and definite character.

H.C. Bowman

DIRECTOR OF EDUCATION.

3/5/1
3/12

CK/1.

[illegible]

2, Richmond Terrace,
Whitehall, S.W.1.

28 February, 1934.

Dear Bowman,

I have been asked on behalf of the Advisory Committee on Education in the Colonies to assemble information regarding school buildings in the Dependencies. Educational officers and missionaries on leave at home sometimes ask us for such information. Though plans suited to a particular area may be quite unsuited to conditions elsewhere it is felt that it may often be possible to get useful hints from what has been evolved in other dependencies and it seems desirable that experience gained in so many parts of the world and the results of careful thought and planning should be made more widely available. It may be possible to publish such information as is supplied as a supplement of "Oversea Education". Even if that is not financially practicable it will be valuable in the Advisory Committee library for those who wish to refer to it.

What we propose to collect in the first instance, if you are kind enough to help us, is standard building plans for various grades of schools and school hostels. Though photographs are always interesting, what enquirers would find most helpful would be information regarding arrangement of rooms, floor space per pupil and other such details as can be got from ground plans, together with information in regard to the extent to which the plans have been approved by the local health authorities as suitable for the purpose in view.

Information regarding construction material and the cost per square or cubic foot would also be useful, though local variations in the cost of material and labour would necessitate caution in the use of such information and materials suitable under some conditions may be inappropriate under others. Information regarding the agency employed in construction would also be welcome more particularly for voluntary school buildings.

For any grade of schools for which you have no standard plans you could perhaps supply the plans of any recently erected school which has been departmentally approved. A copy of departmental regulations relating to school buildings would be useful.

You may be able to think of other information that can be supplied easily and profitably. We do not, of course, want to cause elaborate enquiries or investigation but rather to get from you what you have already to hand.

Yours sincerely.

Arthur Mayhew

Sub:- Water Supply and
Conservancy of New Hirings.
Ref:- Your No. 3. of 18.1.34.

The bills for connecting with the
Jerusalem Water Supply are now at hand.
Apart from the usual "opening fee" which
will be met by this office the following
extra charges have been incurred :-

Deir Abu Tor School (Baquaa)

Cost of supplying and fixing
two ball valves.

LP. 2.040

Sheikh Jarah School

Cost of fixing two ball valves
and two overflow pipes with fittings

3.375

Verbal authority to incur this
expenditure had been received at the time
from the D/Director of Public Works in view
of the urgency of the matter (the Schools
had to open in two days time). It was
then understood that the cost was not to
be met by this office.

Kindly inform me to whom the
bills are to be submitted for settlement.

3.

January 25rd, 1934.

District Engineer,
Jaffa District.
Engineer in charge,
Jerusalem District.
Haifa District.

86

REPLIED 82, 87

88

Subject : Water Supply and Conservancy of
new Schools.

The following is a list of new schools opened during the current financial year from special funds provided in the Estimates of the Department of Education which are to be provided with Water Supply and Conservancy services. The quantities of water which the Director of Education estimates will be required for each school up to the end of the current financial year and for the 1934-35 financial year are as given hereunder :

	Remainder of 1933/34 M3	1934/35 M3.	
		Domestic (a)	Garden (b)
Sh. Jarrah G.S.	60	150.	-
Baq'a G.S.	80	200	-
Qasbiya G.S.	80	200	-
Haifa G.S.	25	60	12
New Manshieh G.S. Jaffa	240	440	-
New Manshieh B.S. Jaffa	480	480	250
Beduin Boarding School, Beersheba	2000	4800 ^x	4400 ^x

x These figures include those already estimated for Beersheba Boys' School.

2. Where the water is already laid on or other arrangements exist for an immediate supply without incurring any expenditure on the installation you should take steps for water to be supplied forthwith. In cases where a water supply installation is necessary

you should report without delay the estimated cost of same.

3. Please also arrange for conservancy services for these schools to be carried out as required, the cost to be met from this Department's provision for Water Supply and Conservancy.

4. Please advise me if the supply of water and conservancy services for the above mentioned schools up to 31-3-1934 can be met from the allocations made to you under "Water Supply and Conservancy" and if not state what additional funds are required.

5. Since the above services may necessitate transfer of funds from one district to another, will you please state if, after providing for these schools, you anticipate any savings on your allocations and if so, what sum you can surrender.

6. With regard to the 1934-35 financial year will you please state the estimated cost of water supply and conservancy services for these schools in order that the provision of additional funds required, if any, may be taken ^{up} in due course. The figures for 1934-35 should show separately water for domestic and gardening purposes.

DESCRIPTION

THE DIRECTOR

THE DIRECTOR

11/19

January 6th, 1934.

Chief Secretary,

Subject : Buildings for
Government Purposes.

This office is frequently approached by Heads of Departments with a view to arranging with private individuals for the erection of buildings, specially designed for specific purposes, to be leased by Government after completion.

2. I appreciate the difficulties of such Departments as Police, Education, Health etc. who are obliged to occupy leased buildings which may be entirely unsuitable for their requirements with the possibility of eviction or largely increased rental claims from time to time.

3. At the same time I must point out that :

- (a) Private individuals rarely realize what a particular building will cost to erect and would endeavour to cut down costs to the minimum resulting in poor construction,
- (b) This Department would be unable to supervise construction and insist upon the quality of materials desirable and maintenance costs would probably be very high in consequence,
- (c) If designed for a specific purpose such buildings would rarely be entirely suitable as ordinary dwelling houses,
- (d) If built specially to suit Government requirements we would be morally obliged to rent such buildings for

2.

extended periods and, when given up, Government will have nothing to show for the money spent on rentals or maintenance.

4. Taking the foregoing into consideration, I cannot too strongly stress the desirability of erecting Government owned buildings whenever it is at all possible to do so.

5. Since it appears, under present policy, impossible to keep pace with Departmental requirements I shall be obliged if you will give me instructions as to what action to take when requests are received as detailed in para 1 of this letter. My 2 of 1.12.1933 refers.

Director of Education,

Subject : Water for Government Schools
(Domestic and garden supply).

Reference: Your 3268/PK dated 13.4.1933.

37c

I note that your estimated quantities
of water required for all districts is

Domestic supply	16772 M3	
Garden supply	<u>14442 M3</u>	= Total <u>31.214 M3</u>

but would point out that your Inspector of
Education Southern District has rendered a
return to my District Engineer, Jaffa shewing
that he requires for the schools in his
district alone

Domestic supply	15.178 M3
Garden	" <u>45.180 M3</u>
Total	60.358 M3

He has included many schools that are
not mentioned on your list, and therefore, I
should be glad to know if preliminary work on
the scheme should be continued on the assumption
that your list is to be followed, and that no
additions to same may be expected before the
beginning of financial year 1934-5.

in 3.

The original correspondence with regard to re-allocations by Dept. of Education is flagged in file 3. No question of maintenance was raised there.

Mr. Cargy raised this point in the earlier correspondence with regard to the Nabbus school - which was the first being taken under this system - vide folios 156, 159, 162 & 184a in 36/3/3 No. 8, but it seems that this point was forgotten in the subsequent correspondence.

See d in
152
in file 36/3/3
No. 8.
C.H.P.
19.9.33.

Section 12 of the Weights and Measures Ordinance, 1928, provided that within a period of five years next following the commencement of that Ordinance, the High Commissioner-in-Council could declare the metric system of weights and measures to be compulsory in this territory. Such period having elapsed, the object of this Ordinance is to renew His Excellency's power in this behalf.

2. The opportunity has been taken to provide that the date upon which the metric system shall become compulsory as well as the reservations from and exceptions to that system shall be set out in the Order-in-Council declaring that system to be compulsory in this territory and not (as was provided in section 12 of the Weights and Measures Ordinance, 1928, which the new section 12 substituted therefor by this Ordinance replaces) in a notice published in the Gazette subsequently to such order.

GOVERNMENT OF PALESTINE.

Application for Special Warrant. No. 23.

Head of Estimates...XXX...PUBLIC WORKS EXTRAORDINARY

Sub-head...25 Additions to Girls School, Jenin

10028 - 10000 - SL. P.

				L.P.
A.	Amount provided in Estimates	...	...	200
B.	Special Warrants :			
	(1) Previously authorised	...	...	-
	(Insert numbers of Special Warrants)			
	(2) Amount now required	...	...	180
			Total	L.P. 380
C.	Estimated Expenditure :			
	(1) Expenditure to date of this application, including liabilities incurred	...	...	200
	(2) Amount required for remainder of financial year	...	...	180
				L.P. 380

- D. State why the vote has become or is liable to prove insufficient ; and in the case of expenditure which cannot properly be classified under any existing sub-head, the necessity for providing for the new service, work or requirements.

(If this space is insufficient for a full explanation a separate memorandum should be attached) 37

An increase of the above vote by a sum of LP.180 is required for the reasons stated in letter No.1820/PE dated 9-6-1933 from the Director of Education to the Chief Secretary, copy attached. The following letters, copies of which are also attached, refer :

No.3/4/2 dated 22-6-1933 from D.P.W. to Director of Education. 52
No.1820/PE dated 3-7-1933 with enclosure from Director of Education to D.P.W. 40

- E. State whether the amount now applied for is of a recurrent nature and will necessitate a permanent increase in the annual estimates.

No

- F. State whether corresponding savings can be effected under other sub-heads, and if so, give particulars of, and reasons for, the anticipated saving.

An equivalent saving will be made in the Estimates of the Department of Education under item 67 "Additional Accommodation for Town Elementary Schools" vide Director of Education's letter No.1820/PE dated 3-7-1933, copy attached. 40

Date 31-8-1933

Egd. R. WEDLEY

To The Treasurer.

DIRECTOR OF PUBLIC WORKS

Head of Department.

NOTE. (i) To be submitted in quadruplicate.

(ii) The Treasurer's comments will be endorsed hereon.

July 3rd, 1933.

Director of Public Works.Subject : Major Works.Reference: Further to my 1820/PE of 9-6-33
to Chief Secretary with copy to
you.

I attach copy of letter from Chief Secretary approving my proposal to allocate funds for building to you from item 67 of my budget.

2. I shall accordingly make to you a financial allocation for LP.1115.

3. This sum together with your own votes is intended to cover works as follows :

<u>Building</u>	<u>Allocation from Education vote</u> LP.
Gaza G.S.	235
Jenin G.S.	180 (Your 5/4/2 of 22-6-33)
Lydda B.S.	100
Petimiya G.S. Nablus	600
Total	1115

4. When tenders for each work have been received, and before the contract is awarded, I shall be obliged if I may be informed of any alteration in the cost of the work.

If the tender which it is proposed to accept exceeds the sum of (a) your vote for the work and (b) my allocation shown above for the same work, I will consider making a further allocation to you.

If the tender falls below the estimate you will no doubt place the balance of my allocation to reserve.

5. Allocations for hiring will be made to you in due course.

sgd. W.J. Farrell

F, DIRECTOR OF EDUCATION

Director of Education.Subject : Major Works 1933-34,
item 25, Jenin G.S.Reference: My 3/4/2 of 27-6-33.

164 in 3/4/2

168 in 3/4/2

Further to my above mentioned letter
I attach copy of letter B/70 of 18-6-33 from
Engineer in charge, Heblus and shall be obliged
if you will kindly inform me :

37

- (a) Whether any reply has been received
to your letter 1820/PE of 9-6-33 to
Chief Secretary,
- (b) Whether - in view of the estimate of
the Engineer in charge for additional
room - you propose to substitute LP.180
for the LP.100 mentioned by you in (a),
- (c) Whether you consider that Engineer in
charge should proceed with the construc-
tion of the 1 room etc. in view of the
fact that certain works carried out in
this connection will be redundant if a
second room is to be constructed in the
near future and the construction of two
rooms can be supervised as easily as one.

In other words we can more easily keep
within the LP.200 available for one room if these
redundant works are eliminated and the second room
may cost more than LP.180 if carried out as a
separate item at some future date.

sgd. R. Hedley

f. DIRECTOR OF PUBLIC WORKS

Copy to Engineer in charge,
Heblus District.

1820/PE.

9th June, 1933.

Chief Secretary.

Subject : Major Works - Additions
to Town Schools.

Certain major works providing additions to Town Schools for various purposes are included in the approved Estimates of the Public Works Department.

2. On the recommendations of the Report of the Committee on Accommodation in Town Schools submitted to you on 7th November 1932 a sum of £P.3,300 was inserted in the Estimates of this Department with a view to increasing the number of new pupils who can be accepted into the lowest class in September 1933.

3. In a school where additions are provided under paragraph 1 above and where the provision of further accommodation from this Department's vote is also desired it is economical and convenient to combine the plans and complete the construction as a single work.

4. I propose therefore that the Director of Public Works should draw up in every such case plans for a larger structure than can be provided from his own vote and that I should allocate to him from my vote any excess of expenditure.

5. The Director of Public Works is unable to complete one work from two votes without your authority and I shall therefore be obliged if this authority may be given.

6. The schools at present in question with the works approved in Public Works Department Estimates and the further works now proposed under the Expansion Scheme are :

<u>School</u>	<u>Item</u>	<u>(a)</u> <u>P.W.D. Estimates</u>		<u>(b)</u> <u>Education Estimates</u>	
		<u>Work</u>	<u>Estimates</u> L.P.	<u>Work</u>	<u>Estimated Cost</u> (Approximate) L.P.
<u>Gaza G.S.</u>	20	Two rooms	730	Increase in size of rooms provided under column(a) and addition of one room	235
<u>Jenin G.S.</u>	23	One room	200	One additional room	100
<u>Lydda B.S.</u>	25	Two rooms	700	Increase in size of rooms provided under column (a) and addition of one room.	100
<u>Fatimiyah G.S.</u> <u>Hablus</u>	27	Two rooms	500	Increase in size of rooms provided under column (a) and 4 additional rooms	600

7. The estimates of expenditure given in paragraph 6 column (b) must be regarded as provisional only until detailed plans are prepared.

8. I shall be obliged if I may have your approval of the procedure suggested in paragraph 4 as soon as possible in order that building may commence and may be completed before September when the schools open.

sgd. W.J. Farrell

August 29th, 1933.

Director of Education.

Subject : Expenditure on Department of
Education during period 1-4-1932 -
31-3-1933. 50

Reference: Your 2572/PE dated 23-8-1933.

I append hereunder details of expenditure
by the Public Works Department on services ren-
dered to your department during the financial
year 1932-1933.

I. PUBLIC WORKS RECURRENT.

a) Maintenance of Water and Electric Light Plants	LP. 14.280
b) Maintenance of Buildings	1,144.959
c) Minor Works	170.111
d) Water Supply and Conservancy	545.186
e) Rent of Offices and Schools	4,636.192
f) Furniture	<u>209.380</u>
Total	LP. <u>6,720.108</u>

II. PUBLIC WORKS EXTRAORDINARY.

a) Additions and Improvements to School, Beersheba	255.849
b) Conversion of Buildings for pro- vision of a Beduin Section at Boys' School, Beersheba.	160.638
c) Additional Accommodation to Boys' School, El Bira	602.900
d) Extension of Play Ground and Enclosing Walls to Girls' School, Gaza.	159.726
e) Additions to Boys' School, Gaza	498.188
f) Additional Accommodation at Boys' School, Qalqilya	<u>297.815</u>

C.F. LP. 1,975.116

P.T.O.

2.

	B.F.	LP.	1,975.116
g) Construction of Additional Rooms at Boys' School, Ramle			399.993
h) Extension of grounds, Boys' School, Ramle			5.200
i) Furniture for New Schools and School Rooms			290.262
	Total	LP.	2,670.571

The above figures include expenditure on "Railway Fares and Freight" but no "Overhead Charges" of which the approximate amount based on the proportionate expenditure on services carried out for your department to the total expenditure by the Public Works Department during the period under review is LP. 990.

FOR THE YEAR
1911-12

RECEIVED AT SACRAMENTO, CALIF.
DATE
FILED
INDEXED

August 8th, 1933.

Director of Education.Subject : House of Taher Bros. Nablus
(for Boys' School).

S. in 36/8/34 No 9

The request made in letter No. 36/8/3 of 27-7-1933 from the Chairman, Central Housing Commission, for a financial allocation for the sum of LP.200 to cover the rent of the above building, was inadvertently made in ignorance of the correct procedure.

2. You will note from paragraph 3 of Chief Secretary's letter No. E/42/33 of 18-7-1933 that expenditure on rent from your allocation of LP.5,300 should be provided by special warrants supplementing the relevant vote of the Estimates of this department. I am accordingly applying to the Treasurer for a special warrant, copy attached, for the increase of the vote of "Rent of Offices and Quarters", item 8, Head XXVII "Public Works Recurrent" by a sum of LP.200 an equivalent saving being made under item 67, "Additional Accommodation for Town Elementary Schools" of your Estimates.

3. I shall be glad if, in the circumstances, you will cancel your financial allocation No. 38 of 28-3-1933.

4. It should be noted that while the rental for two years is being paid from funds transferred from your vote, this new hiring will cause a permanent increase on the vote for "Rent of Offices and Quarters" controlled by this department unless provision will be made in your Estimates of future years also to cover such payments. In this connection I must point out that I am strongly opposed to rent for schools being provided in the Estimates of two different departments. The Chief Secretary should therefore agree to our rents vote being permanently increased to cover the commitments incurred on account of schools taken on, ~~and~~ to be taken on, from provisions provided under your budget and no provision should be made in future years for this purpose under your budget - if required to do so we can easily provide a small amount on our Rents vote especially to cover increase in school accommodation.

Telephone: No. 1110.

In reply please quote

No. 1820/PE

GOVERNMENT OF PALESTINE,

DEPARTMENT OF EDUCATION,
JERUSALEM.

3rd July, 1933.

Director of Public Works.

Subject :- Major Works.

Reference:- Further to my 1820/PE of 9/6/33
to Chief Secretary with copy to
you.

I attach copy of letter from Chief
Secretary approving my proposal to allocate funds
for building to you from item 67 of my budget.

2. I shall accordingly make to you a
financial allocation for EP.1115.

3. This sum together with your own votes is
intended to cover works as follows:-

<u>Building.</u>	<u>Allocation from Education</u>	
	<u>Vote</u>	<u>EP.</u>
Gaza G. S.	235	
Jenin G.S.	180	(Your 3/4/2 of 22/6/33)
Lydda B.S.	100	
Fatimiyah G.S. Nablus	600	
Total		1115

4. When tenders for each work have been received,
and before the contract is awarded, I shall be obliged
if I may be informed of any alteration in the cost of
the work.

If the tender which it is proposed to accept
exceeds the sum of (a) your vote for the work and (b)
my allocation shown above for the same work, I will
consider making a further allocation to you.

If the tender falls below the estimate you
will no doubt place the balance of my allocation to
reserve.

5. Allocations for hirings will be made to you
in due course.

GOVERNMENT OF PALESTINE

E/92/33.

CHIEF SECRETARY'S OFFICE,
JERUSALEM,
PALESTINE.

24 June, 1933.

Director of Education.

Subject :- Major Works - 37
Additions to Town Schools.

Reference :- Your letter No.1820/PE of
the 9th June, 1933.

I am directed to request that
you will make a financial allocation to the
Director of Public Works for the building
part of the vote of LP.3,300 in the approved
Estimates for 1933-34, and inform Government
as soon as you can conveniently do so, of the
programme which your Department will devise
at the end of the school year for hirings, etc.

(Sgd) Max Nurock.

for Acting Chief Secretary.

REFERRED TO

45

3/3/3

June 11, 1933.

Director of Education.

67 in 3/3/3

Subject : Hiring No. 4 - Habron
(Girls' School).Reference: Your 123/22/1 dated
26.5.1933 (para 2).

I gather you propose to carry out all negotiations with the owner for the erection of the proposed two storey building and pay a certain sum (agreed to by you) from your approved budget as rent, and that I am only desired to collaborate with the landlord in the preparation of plans, and later on complete a lease for a period and at a rental, at present unknown to me.

2. The scheme does not appear to me to be a sound one. I wish to put on record that I cannot accept any responsibility whatever for the work that may be put into the job by the landlord unless complete plans and specifications are available and I am provided with funds to cover cost of necessary supervision. I also consider the terms of the agreement to be entered into by Government should be known before any commitment of this nature is made.

3. I shall therefore be glad if you will inform me if the sanction of the Chief Secretary has been obtained to the general scheme, as I do not propose to proceed any further until I have his definite instructions as to my part in the affair.

4. Perhaps it would be as well if we personally discussed the subject of schools which are to be built or enlarged from funds under your control.

Sgd. Fawcett Pudsey

DIRECTOR OF PUBLIC WORKS.

Dear Mr. [Name]:

I am pleased to inform you that your application for admission to the University of California has been reviewed and approved. You are hereby admitted to the University of California for the fall semester of 1978. Your admission is contingent upon your successful completion of the required entrance examinations and the submission of your financial statement. Please contact the Office of Admissions at the University of California, 100 California Street, Suite 100, San Francisco, California 94104, for further information regarding your admission and the necessary steps to complete your enrollment. We look forward to your arrival on campus in the fall.

REPERE

35

65

20th February, 1933.

Director of Education.

159 in 3/4/2

It has been the practice for this Department to pay charges for water supplied to Government schools for domestic purposes. Recently there has been considerable activity in the development of school gardens and District Engineers have called my attention to the increasing demands for water for gardening purposes and the necessity for increased provision to cover the cost, also pointing out that it is practically impossible for a District Engineer to estimate what amount of water a school may use for such purposes, as so much depends upon the personnel.

As the control of the quantity of water used for this purpose lies with the school staff it seems to me that they should be responsible for estimates and expenditure. I should be glad if you would consider the question in order that we may refer the matter to Government suitably.

Signed, J. F. ROWLANDS

For DIRECTOR OF PUBLIC WORKS.

Subject : Water Supply to Government
Schools, Jaffa.

Reference: Your No. 7 of 10-2-33.

This department is responsible for maintenance services of all buildings occupied by Government whether leased or owned by Government and the maintenance services include water supply.

2. Provided therefore the schools in question are occupied by Government, payment for water must be made from the P.W.D. vote for "Water Supply and Conservancy".

3. In case the monthly water charges become unduly high and are likely to cause an excess on the allocation made to you, you should report the matter to this office with the view to steps being taken for a reduction in the water consumption or/and application for additional funds, as may be necessary.

4. I note that provision is made in your draft Estimates for 1933-34 for payment of water to two Government schools at Jaffa.

Signed. J. F. ROWLANDS

JAFFA.

Director of Public Works,
Jerusalem.

30th December 1932

16/36/2/2/5 no 2
Subject:- Water Supply to Government Schools.
Reference:- Central Housing Commissions letter
36/2/2/5 of 27.12.32 with copy of
Director of Education's letter
46/12 of 22.12.32 and Agreement form
for water supply with vouchers for
payment.

160 in 36/2/2/5 no 2
This subject, as far as my knowledge is concerned, has not been raised before and as the principle of payment will eventually involve the department in a large outlay it appears advisable to ventilate same.

2. At the present time all Government Schools enjoy a water supply, some a piped supply, others by carrier, but there appears to be no charge to Government funds for such.

not attached
3. If the principal of paying for water is established, there are 26 schools in this district which are liable to send in bills similar to the one attached - say an average of LP.1.- per month per school or total of LP.312.- for the 26 schools and about 13 to 15 schools with a carried supply - say probably 250 mils per month per school or a total of LP.39.- to LP.45.000.

4. Grand total for the district LP.357.- Minimum, if gardening is extending demands for payment may easily rise to LP.900.- to LP.1000.-

5. I think it is fully recognized that water should be free, but if estimates are to be worked to it is essential that some system should govern school water supplies, and as Public Works Department are not in a position to control such system, the Department of Education should continue to control the school supplies and meet cost of same from their budget as at present or get a minimum basis charge established for each class of school.

requested
6. Pending the settlement of the principal involved, I have requested the Municipality to hold up demand for payment.

7. I should be obliged for instructions in this matter and have retained water agreements.

8. Jaffa Boys Secondary School the bill for which is LP.1.200 for 48 MS. for November, has 570 pupils and 19 teachers.

Subject : Expenditure on Department of
Education - 1931.Reference: Your 2572/PE dated 5.9.1932.

The following statement shows the expenditure incurred by the Public Works Department on services rendered to your department during 1931 (1.4.31 - 31.3.32)

I. Public Works Recurrent.

a) Maintenance of Water & Electric Light Plants.	LP. 18.480
b) Maintenance of Buildings	924.917
c) Minor Works	255.534
d) Water Supply and Conservancy	472.120
e) Rent of offices and schools	5611.053
f) Furniture	205.964
Total	<u>LP. 7488.068</u>

II. Public Works Extraordinary

a) Construction of Arab Training College, Jerusalem	761.861 ✓
b) Electric Light installation in Women's Training College, Jerusalem.	154.373 ✓
Total	<u>LP. 916.234</u>

The above figures do not include expenditure on "Railway Fares and Freight" and "Overhead Charges" in respect of services carried out for your Department. No separate record is kept of the expenditure under these heads for each department but the following are the approximate amounts based on the proportionate expenditure for your department to the total expenditure by the Public Works Department during 1931 :

III. a) Railway Fares & Freight Recurrent	374.400
b) " " " " Extraordinary	100.786
c) Total overhead charges including Personal Emoluments & Other Charges	1172.092
Total	<u>LP. 1647.278</u>

9th August 1932

Chief Secretary.

Subject : Grants to Local Authorities for
School Buildings. Head XII B.
Other Charges Item 50.

I request ~~your~~ authority for distribution of this item as shown in the attached schedule.

2. The sums are in the nature of assistance, and preference has been given to local authorities which have displayed most initiative in raising money by their own efforts.

3. I have to point out that the number of deserving applications has been much in excess of the sum available for disbursement.

4. I am in collaboration with the Departments of Health and Public Works in order to ensure by their cooperation that these grants shall be efficiently and economically administered.

5. It will be observed that these disbursements do not involve Government in additional recurrent expenditure.

sgd. H.E. Bowman

DIRECTOR OF EDUCATION
